

Un-named shafts

The location of the following shafts has been identified, all are currently un-named and some are no longer visible. Much of this information has been obtained from a Gwynedd Archaeological Trust survey of the Parys Mountain area.

Shaft Number	Easting	Northing	Description
126	4279	9020	Adit shown on 1815-1819 map
127	4290	9032	Adit shown on 1815-1819 map
128	4356	9043	Flooded working that lead to western shaft
129	4381	9123	The point at which the joint level emerges and joints with afon goch. At least 1815.
130	4390	9032	Shaft shown on 1900 OS. Just south of Marias. Location indicated by finger run of tips
131	4394	9054	Shaft position. (From AMC data) Not visible
132	4396	9060	Shaft visible from underground as prehistoric bell pit.
133	4398	9055	Shaft position. (From AMC data) Not visible
134	4400	9023	Shaft near old engine shaft area of Great open cast (AMC data) No longer visible.
135	4403	9045	Capped shaft close to new open cast
136	4407	9054	Shaft shown on 1815 map Bangor MS31602 North of Buckley shaft
137	4410	9033	Shaft in North wall of Great open cast. (AMC data) No longer visible.
138	4412	9022	Adit 2*3 cut in bed rock in south face of GOC. Now blocked with fallen stone
139	4412	9031	Collapsed shaft in northern end of great open cast
140	4416	9005	Collapsed shaft on side of dyffryn coch
141	4416	9028	Collapsed shaft in GOC with timber showing
142	4417	9030	Possible shaft with in GOC
143	4418	9002	Shaft within Dyffryn Coch shown on Parys mine map of 1784 bangor MS31603
144	4420	9000	Shaft within Dyffryn Coch shown on Parys mine map of 1784 bangor MS31603
145	4420	9034	Shaft within Mona part of GOC. Ginging visible to North and brest wall to South.
146	4422	8999	Shaft within Dyffryn Coch shown on Parys mine map of 1784 bangor MS31603
147	4425	9068	Shallow trail shaft near Oxen quarry
148	4426	9039	Shaft within Mona part of GOC. (AMC data) No longer visible.
149	4435	9059	Shaft near Charlottes yard. (AMC data) No longer visible.
150	4436	9036	Shaft within Hillside opencast. (AMC data) No longer visible.
151	4447	9045	Shaft close to Clay shaft. (AMC data) No longer visible. Possible location of "Footway" on Bridstow map of 1892
152	4456	9053	Shaft just south of Calciners. (AMC data) No longer visible.
153	4457	9049	Shaft just south of Calciners. (AMC data) No longer visible.
154	4460	9033	Trail shaft surrounded by low wall. In an otherwise undisturbed area south of Mona precipitation pits.

155	4465	9062	Shaft just NE of Golden venture. (AMC data) No longer visible.
156	4466	9055	Shaft in Bluestone area. (AMC data) No longer visible.
157	4470	9056	Shaft in Bluestone area. (AMC data) No longer visible.
158	4471	9055	Capped shaft in Bluestone area. (AMC data) No longer visible.
159	4474	9068	One of the Stephan group of shafts shafts
160	4474	9068	One of the Stephan group of shafts shafts
161	4475	9068	Shaft close to Treweeks. (AMC data) No longer visible.
162	4479	9071	Capped shaft close to Cerrig y bleddia shaft
163	4488	9092	Shaft to North west of Hen waith. (AMC data) No longer visible.
